

NOTHING ABOUT US, WITHOUT US.

Problem

There are currently more than 65 million refugees in the world and more than 50% of them are young people and children who have been forcibly displaced and have no hope for a better future for themselves because of zero representation

Solution

With GYAC, our goal is to build an independent youth body under UNHCR from refugee backgrounds to bring changes to the policies that impact their lives

Marketsize

More than 30 million refugee youths who will directly or indirectly benefit from this movement

Competition

States and governments against the resettlements of refugees whether youth or not

Revenue model

To be able to receive funding from NGOs, INGOs and UNHCR that will help us plan and organize youth specific consultations that will create action plans for youth during the decision-making process of UNHCR

GTM strategy

The team formed will each focus on a region and our goal is to be able to build national youth advisory councils within Asia, Africa and the Americas and in the future have local advisory councils who will work with NGOs & INGOs on the betterment of the treatment of refugees

Traction:

The GYAC is currently being represented during all global consultations and we have also been the catalyst of youth voices in the Global Compact for Refugees with UNHCR.

Who are the leaders?
